## 90 min lessons - what to expect:

### Theory

Learn to groom and tack up a horse

Learn to bond and lead

Hacks inclusive

## What makes our lessons so special:

Horses are healers.

Horses are more than just "riding animals"

We customize our lessons for children and grown ups, and also offer inclusion programs with our partners.

Based on exercises of classical dressage, you will learn in your own speed and rhythm to find a balance on the horse.

Riding horses is not just about having fun, but about finding the key to every horse's heart and riding in harmony with the horse.

At Ride to Rescue we focus on the very deep soul connection between children/ adults and the horse.

We promote mindful handling and riding of our horses.
